InnoTech Atira: Doubled walled drawer systems

Sharp contours, a choice of colours and diverse side elements complemented by a wealth of interior organisation solutions produce plenty of creative potential. No other drawer system provides this level of individuality.

InnoTech Platform concept

- Economic mark of distinction

470mm Standard depth drawer system to maximise UK cabinet depths

- Also available in different depths for bedroom and bathroom use

Multi choice of widths available

- Colour co-ordinated steel rear panels in standard widths from 275mm to 1200mm
- Rear panel connector also allows bespoke widths

Multi choice of materials gives extra differentiation to customer

- DesignSide, steel and glass TopSide and railing available

Multi choice of decors to continue design theme within cabinet

- Drawer sides available in Silver as standard, White and Dark Grey available on request
- DesignSides available in many finishes as standard and bespoke

Multi choice of soft close runners available

- From partial extension non soft close to full extension soft close the choice of running options is limitless
- 25 kg to 50 kg available from stock
- Stainless Steel ball bearings used for long life
- Runners tested to 80,000 open/close movements
- Mechanical push to open runners also available using the same drilling pattern

Durable, scratch resistant drawer sides

- Powder coating
- Smooth finish
- Easy to clean

Ease of assembly and adjustment

- Rapid assembly to save time
- Thumbwheel adjustment of front panel height saves time when fitting
- Easy removal and re-connection of drawer fronts

German engineering at it's best

- Offering something that little bit different

InnoTech Atira cuts a sharp profile

- This is where clear cut styling meets tried and proven technology
- Striking design with creative potential.
