Introduction to timber & laminate Sealant

NEY timber & laminate sealant is a polymer rich, permanently flexible sealant and gap filler designed for sealing around laminate flooring, fitted furniture and kitchen worktops.

Formulated using high clarity lightfast colour pigments, the 6 colour range offers a near or exact match to many popular laminate floors and melamine board finishes.

This sealant is silicone and solvent free and unlike conventional matt finish water-based sealants, leaves a satin finish which will not pick up dirt and can be easily cleaned with normal household cleaners. If desired it can be painted, varnished or wood stained.

Crystal clear is particularly suitable for over coating with wood stain, as the finish achieved will reflect the actual finish that is obtained on the surrounding timber.

Available colours

- Beech (BE)
- Cherry (CH)
- Crystal Clear (CL)
- Mahogany (MA)
- Oak (OA)
- Pine (PI)
