# Repair Waxes

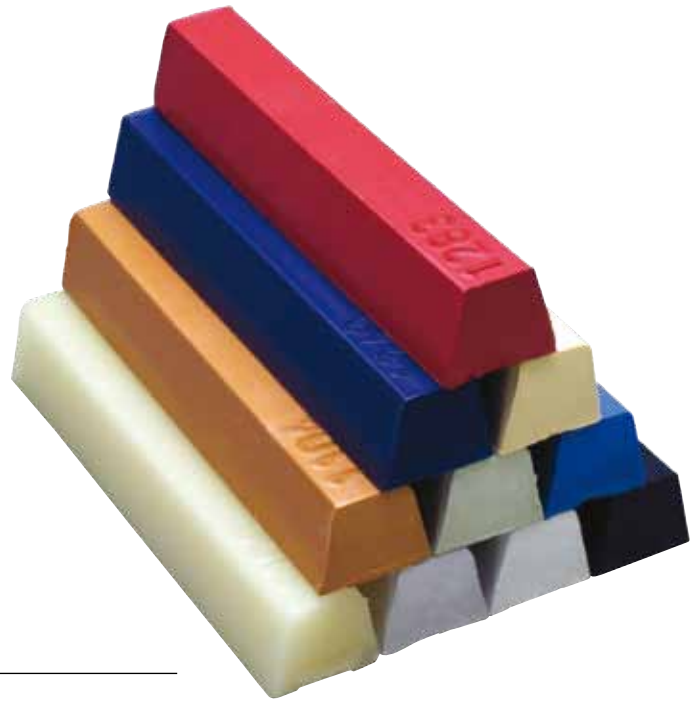

Soft and hard repair waxes

## Soft wax

For the rapid repair of scratches and minor defects on many surfaces in areas of least wear and tear. Recommended for indoor use only.

## Hard wax

For a more permanent hard wearing repair to busy areas and delicate surfaces such as foils and prints. With a heat resistance up to 110°C this wax is suitable for indoor and outdoor use. Colours can be combined to achieve the perfect match. A wax heating iron is required when using hard wax.

- Available in a variety of packs comprising of a selection of shades and stick lengths
- A range of over 250 colours available

- Individual colours also available in packs of 2 x 8cm sticks
- Colour matching available on request

Soft wax		
Description	Part Number	Pack Qty
10 x 8cm pack (light woods)	<b>RSWAX-S01</b>	1
20 x 4cm pack (light to dark woods)	<b>RSWAX-S02</b>	1
2 x 8cm pack (selected colour)	<b>RSWAX*</b>	1

Hard wax		
Description	Part Number	Pack Qty
20 x 4cm pack (light to dark woods)	<b>RHWAX-H01</b>	1
2 x 8cm pack (selected colour)	<b>RHWAX*</b>	1

\* Part number dependant on colour

## Hard wax heating iron

This iron is needed when using Hard Waxes only and is used in the same way as a soldering iron but is fuelled by Butane gas to heat the melting tip. The heating iron is supplied empty and can be filled using normal lighter butane aerosols.

100% mobility and is ready to use in seconds, due to its Piezo-Ignition system there are no flints used making it a very low maintenance tool.
