

# Dust Seal Profiles

Please call us for information on the full range available: 024 7630 8100

Plain / woodgrain

Double seal

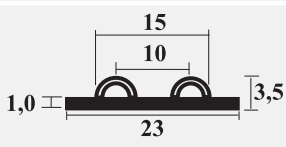

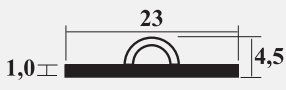

Single seal

## Introduction to Dust Seal Profiles

Dust seal profiles are getting more popular especially in the bedroom and office furniture markets, in fact they can be used in all types of furniture where prevention of the ingress of dust would be both desirable or a necessity. In all cases they would greatly enhance the quality of your product and become a valuable selling point.

## Dust Seal Profiles - In Stock

We presently stock the profiles shown below in white, although we have up to 100 colours comprising woodgrain and plains and in a variety of profiles.

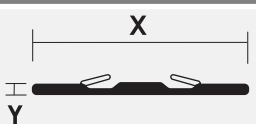

Dust Seal Profile and NEY Profile Reference	Width	Colour
	23mm	White
	23mm	White

## How to apply

The Dust seal profiles are primed in the same way as flat edging. They can be applied using a glue pot edgebander.
