2D Lamination

DeuraGEM™ foil

DeuraGEM™ 2D Lamination Foil

DeuraGEM™ and DeuraREAL™ (see page 28) are the most technologically advanced 2D lamination grade, non PVC, high gloss and super real foils on the market today. They're ideal for the flat lamination or profile wrapping of MDF Plywood, Aluminium and Steel – basically everything solid with a flat surface.

Their technical characteristics make them absolutely unique in the lamination field giving a serious, cost effective alternative to fragile, pricey acrylic sheet materials. The brilliant finishes available have established DeuraGEM™ and DeuraREAL™ as the market leader in the Far East, particularly in Japan, and it is now available in Europe through NEY.

- Non PVC (PET/PP/PE compound)
- 200m rolls as opposed to sheets
- Superior EB coating technology
- High gloss level
- High scratch resistance
- Stain resistant
- Solvent resistant

2D Lamination

DeuraREAL™ foil

- Non PVC (polyolefin compound)
- 200m rolls as opposed to sheets
- Superior EB coating technology
- Real wood appearance
- Good scratch resistance
- Stain resistant
- Solvent resistant
