

Packaging

Tapes, stretch film and protectors

Packaging Tape

Our clear tape is a low noise polypropylene tape giving instant adhesion to paper and board. Both our clear and fragile tapes are suitable for use with tape applicator gun.

Tape Applicator Gun

This sturdy tape gun is designed for use with most 50mm wide self adhesive tapes. Ideal for fast application on busy despatch/packaging lines.

Pallet Wrapping and Machine Application

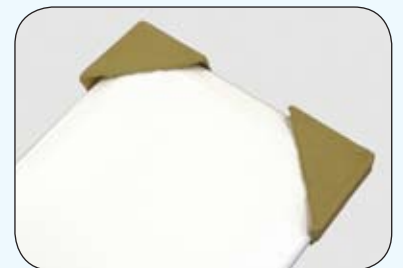

Transparent stretch film suitable for pallet wrapping is available for both hand applying and with stretch wrapping systems.

Manual Application

400mm wide 17micron blown film with extended cores.

Machine Application

250mm wide 35micron pre-stretched cast film.
500mm wide 20micron pre-stretched cast film.

Corner Protectors

Rugged transit protection and cushioning from a truly biodegradable and recycled resource.

These corner protectors are invaluable when storing and transporting panels, doors, carcasses, cabinets etc. as they give excellent protection to damage prone areas.
